Activity #1

1. Operating System

Instructions:

Using a Windows, macOS, or Linux computer, find and take screenshots of:

System Information

The screenshot shows the Windows System Information application. The left sidebar has a tree view with 'System Summary' selected. The main pane displays a list of system items and their values. At the bottom, there is a search bar and two checkboxes: 'Search selected category only' and 'Search category names only'.

Item	Value
OS Name	Microsoft Windows 10 Pro
Version	10.0.19045 Build 19045
Other OS Description	Not Available
OS Manufacturer	Microsoft Corporation
System Name	LAB4-PC41
System Manufacturer	ASUS
System Model	System Product Name
System Type	x64-based PC
System SKU	SKU
Processor	11th Gen Intel(R) Core(TM) i7-11700 @ 2.50GHz, 2496 Mhz, 8 Core(s), 16 Logi...
BIOS Version/Date	American Megatrends Inc. 1605, 5/13/2022
SMBIOS Version	3.3
Embedded Controller Version	255.255
BIOS Mode	UEFI
BaseBoard Manufacturer	ASUSTEK COMPUTER INC.
BaseBoard Product	PRIME B560M-K
BaseBoard Version	Rev 1.xx
Platform Role	Desktop
Secure Boot State	Off
PCR7 Configuration	Elevation Required to View
Windows Directory	C:\Windows
System Directory	C:\Windows\system32
Boot Device	\Device\Harddiskvolume1
Locale	United States
Hardware Abstraction Layer	Version = "10.0.19041.3636"
User Name	LAB4-PC41\ACT-STUDENT
Time Zone	Malay Peninsula Standard Time
Installed Physical Memory (RAM)	16.0 GB
Total Physical Memory	15.8 GB
Available Physical Memory	10.3 GB
Total Virtual Memory	18.2 GB
Available Virtual Memory	11.2 GB
Page File Space	2.38 GB
Page File	C:\pagefile.sys
Kernel DMA Protection	Off
Virtualization-based security	Not enabled
Device Encryption Support	Elevation Required to View
Hyper-V - VM Monitor Mode E...	Yes

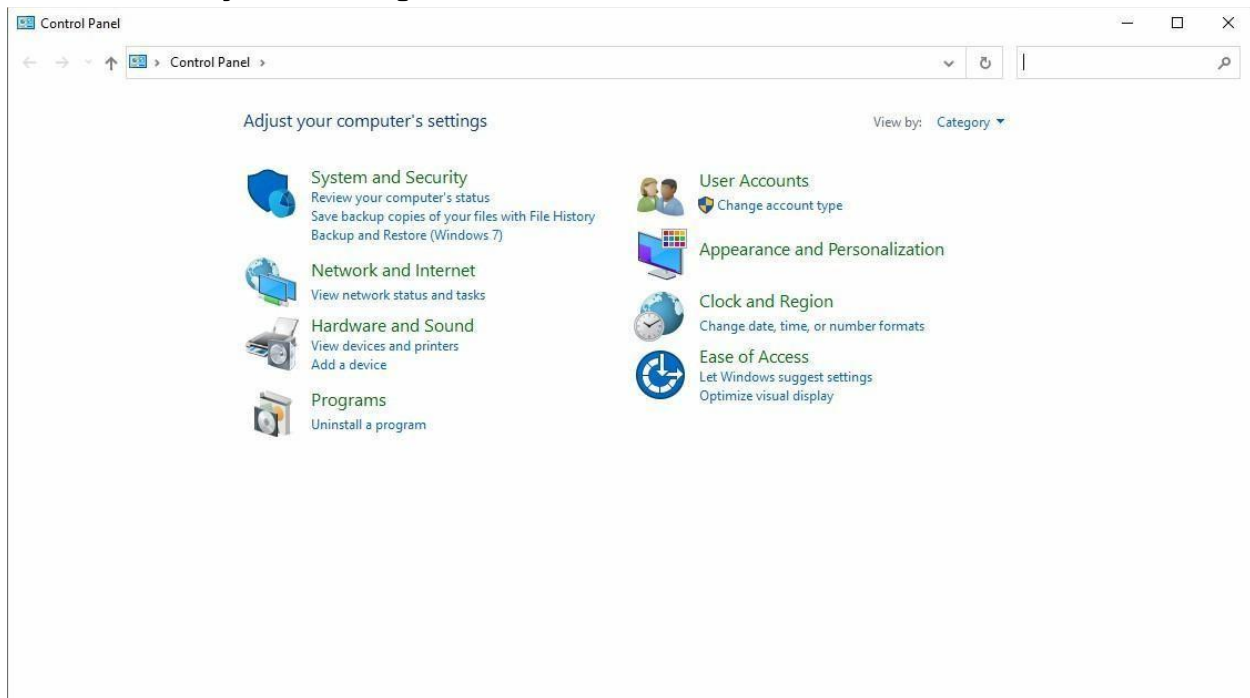

Function - Provides detailed information about the computer's hardware, software, operating system, processor, memory, and installed components. It helps users and technicians monitor system specifications, diagnose problems, and verify system configurations.

Function - A system utility that displays currently running applications, processes, and system performance. It allows users to monitor CPU, memory, disk, and network usage, as well as manage or terminate unresponsive programs.

Control Panel/System Settings

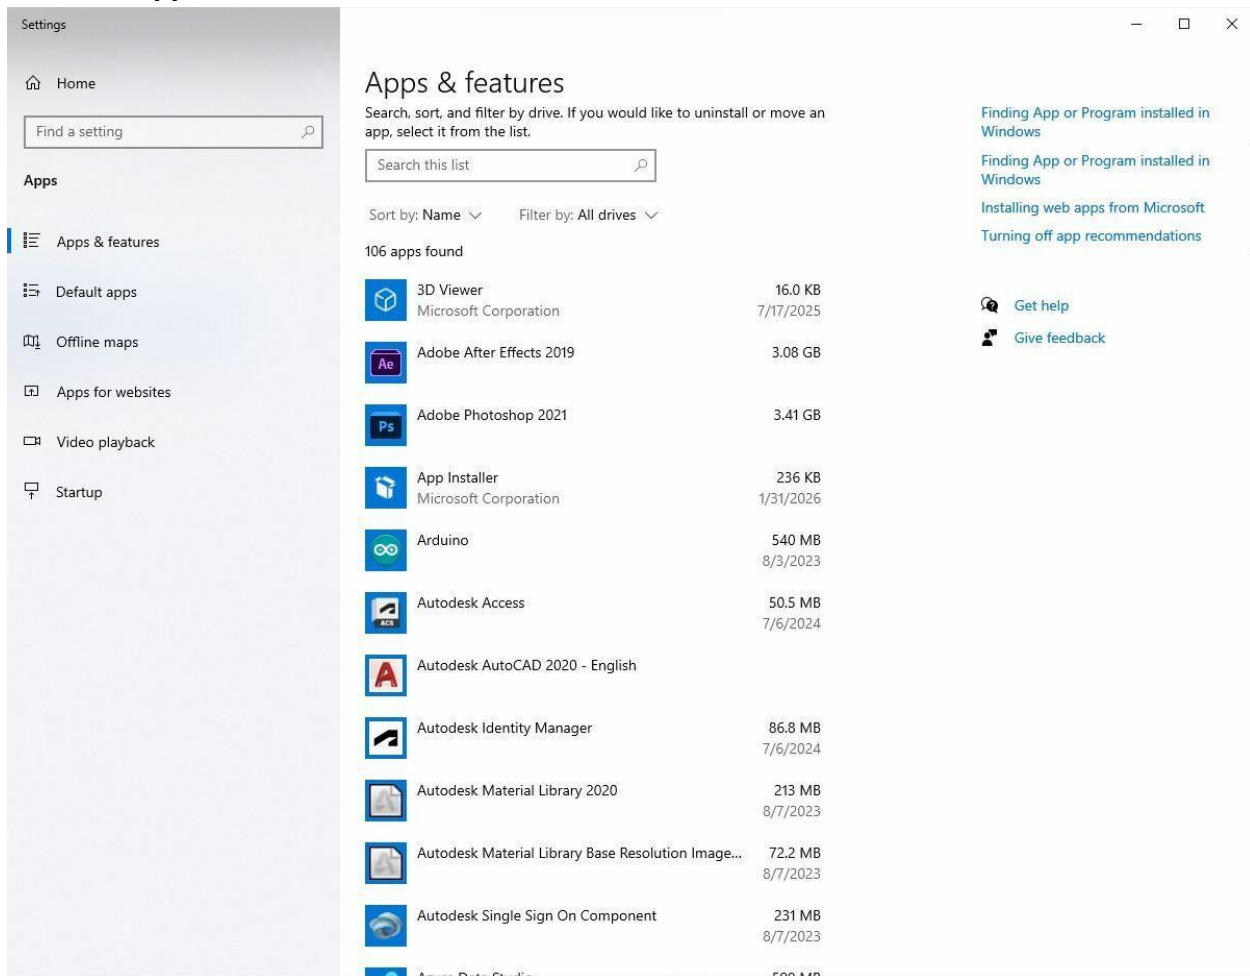

Function - A system utility that allows users to configure and manage computer settings, including hardware devices, network connections, user accounts, security options, and system preferences. It helps customize and maintain the operating system according to the user's needs.

File Explorer

Function - A file management utility that allows users to browse, organize, create, copy, move, rename, and delete files and folders. It provides an easy way to access and manage data stored on the computer and connected storage devices.

Installed Applications

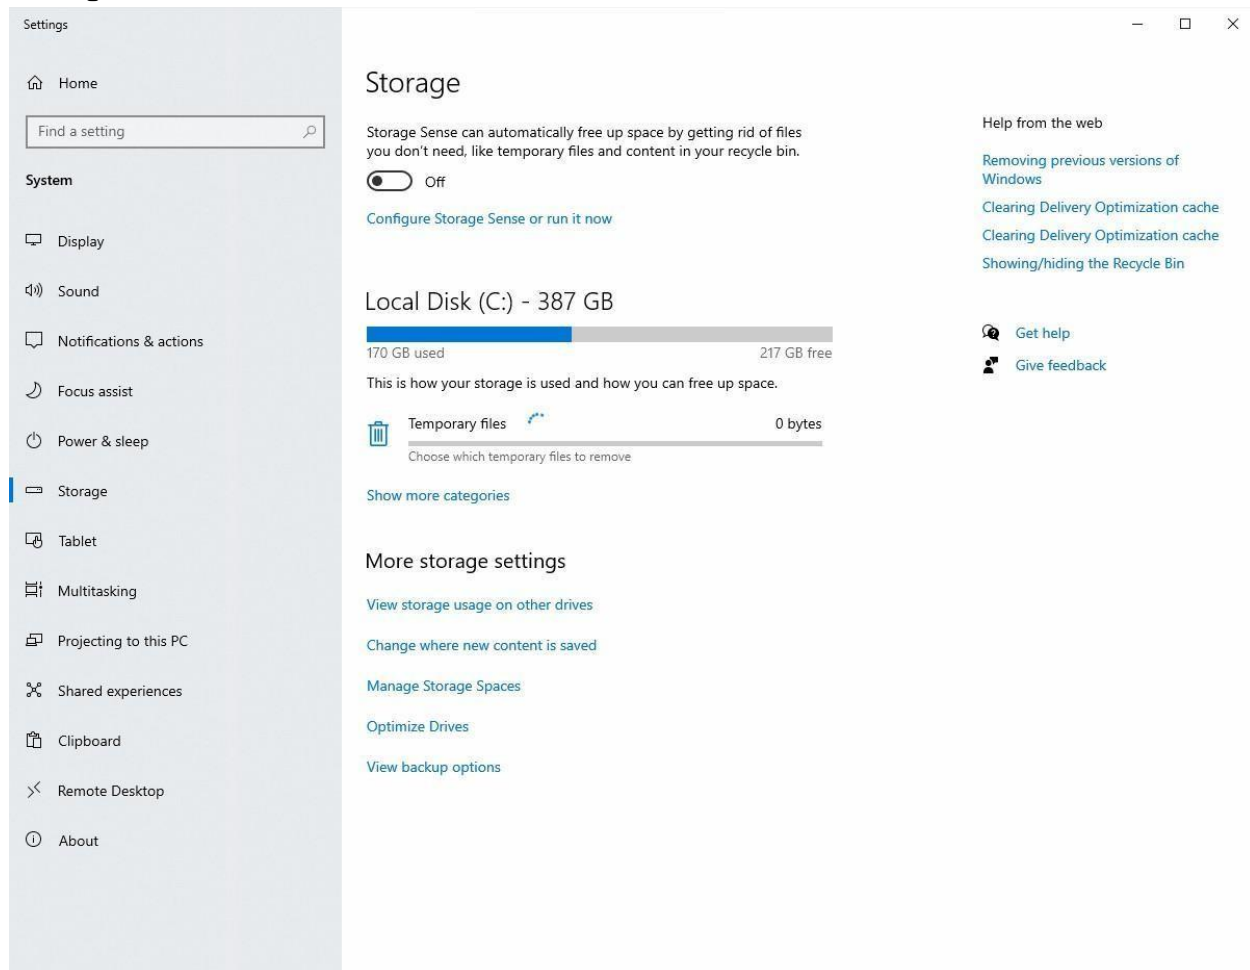

The screenshot displays the Windows Settings application, specifically the 'Apps & features' section. The left sidebar shows the 'Settings' menu with 'Apps & features' selected. The main area is titled 'Apps & features' and includes a search bar, a 'Search this list' box, and sorting/filtering options. A list of 106 apps is shown, with the first 10 visible. The right sidebar contains links for finding apps, installing web apps, and turning off recommendations, along with 'Get help' and 'Give feedback' buttons.

App Name	Size	Installation Date
3D Viewer Microsoft Corporation	16.0 KB	7/17/2025
Adobe After Effects 2019	3.08 GB	
Adobe Photoshop 2021	3.41 GB	
App Installer Microsoft Corporation	236 KB	1/31/2026
Arduino	540 MB	8/3/2023
Autodesk Access	50.5 MB	7/6/2024
Autodesk AutoCAD 2020 - English		
Autodesk Identity Manager	86.8 MB	7/6/2024
Autodesk Material Library 2020	213 MB	8/7/2023
Autodesk Material Library Base Resolution Image...	72.2 MB	8/7/2023
Autodesk Single Sign On Component	231 MB	8/7/2023
Azure Data Studio	599 MB	

Function - Programs and software that have been installed on a computer to perform specific tasks. Users can access, manage, update, or uninstall these applications as needed to support productivity, communication, entertainment, and other functions.

Storage Information

The screenshot shows the Windows Settings application with the 'Storage' section selected in the left-hand navigation pane. The main content area displays 'Storage' settings. At the top, there's a toggle for 'Storage Sense' which is currently turned 'Off'. Below this, a link 'Configure Storage Sense or run it now' is visible. The 'Local Disk (C:) - 387 GB' section shows a progress bar indicating '170 GB used' and '217 GB free'. A note states 'This is how your storage is used and how you can free up space.' Below the note, a 'Temporary files' section shows '0 bytes' and a link to 'Choose which temporary files to remove'. A 'Show more categories' link is also present. The 'More storage settings' section includes links for 'View storage usage on other drives', 'Change where new content is saved', 'Manage Storage Spaces', 'Optimize Drives', and 'View backup options'. On the right side, there's a 'Help from the web' section with links to 'Removing previous versions of Windows', 'Clearing Delivery Optimization cache', and 'Showing/hiding the Recycle Bin'. At the bottom right, there are links for 'Get help' and 'Give feedback'.

About

Storage

Storage Sense can automatically free up space by getting rid of files you don't need, like temporary files and content in your recycle bin.

☐ Off

Function - Provides details about the computer's storage devices, including total capacity, available space, and disk usage. It helps users monitor storage health, manage files, and ensure sufficient space for system operations and applications.

Device Manager (Windows)

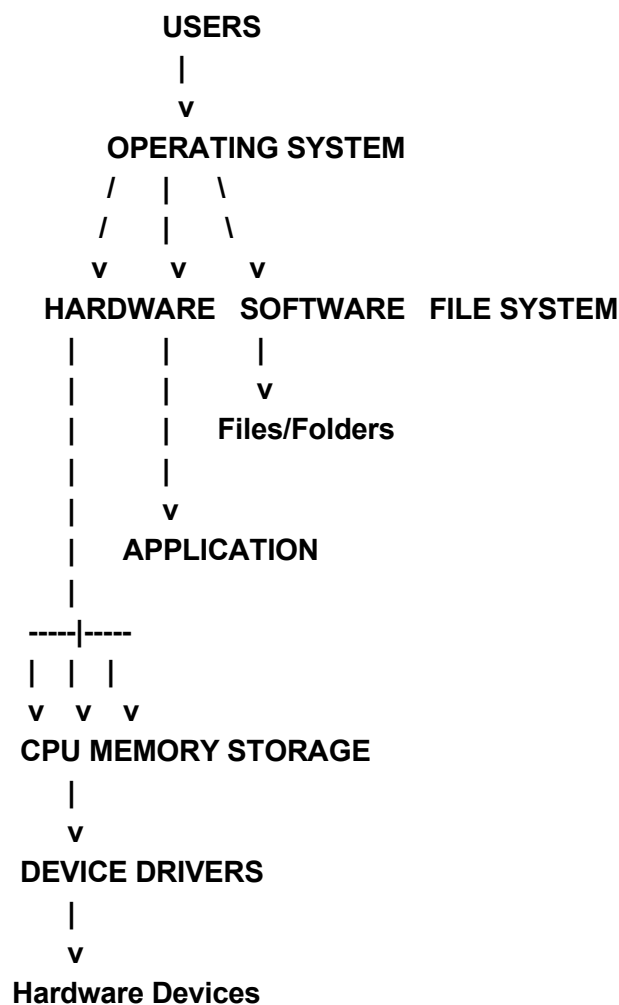

Function - A system utility that displays and manages all hardware devices connected to a Windows computer. It allows users to view device status, update drivers, troubleshoot hardware issues, enable or disable devices, and verify that hardware components are functioning properly.

1. Create a flowchart illustrating how a user interacts with the operating system to perform a task (e.g., opening an application, saving a file, or printing a document).

1. Create a concept map showing the relationships among the following:

- Operating System
- Hardware
- Software
- Users
- CPU
- Memory
- Storage
- File System
- Device Drivers
- Application

Relationships:

- Users interact with the Operating System.
- The Operating System manages Hardware and Software.
- Hardware includes CPU, Memory, and Storage.
- Device Drivers allow the Operating System to communicate with hardware devices.
- Applications are software that run on the Operating System.
- The File System organizes and manages files stored in Storage.
